Florence, founded by the Romans in 59 BCE, rose to prominence in the Middle Ages as a wealthy banking and trade center. During the 14th to 16th centuries, it became the cradle of the Renaissance, home to artists and thinkers like Michelangelo, Leonardo da Vinci, and Dante. The powerful Medici family ruled Florence for much of this period, sponsoring art and humanist scholarship. Eventually, the city became part of the unified Kingdom of Italy in 1861 and briefly served as its capital from 1865 to 1871.
